AERIAL MANLIFT BUCKET Selection Worksheet

As you know, there is really no such thing as a "standard" bucket for an aerial manlift manufacturer. To make absolutely sure that we make your new bucket just exactly right, we ask you to take a few minutes to complete this simple worksheet.

- Please identify aerial manlift manufacturer _____ Model # _____ Mfg. Part # _____
- Color desired: Inside _____ Outside _____
(Note: Our standard color is white outside and gray inside.)

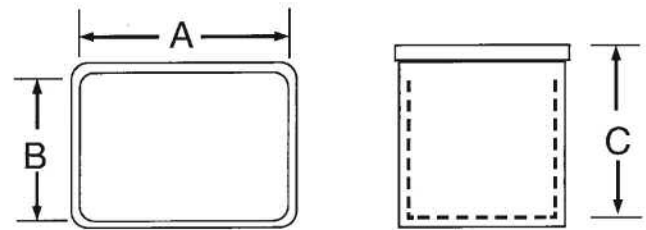

3. Size of bucket: INSIDE DIMENSIONS AT TOP

TOP VIEW

SIDE VIEW

- A. Length
- B. Width
- C. Height

(Bottom of inside to top of flange)

4. How mounted (circle correct one)

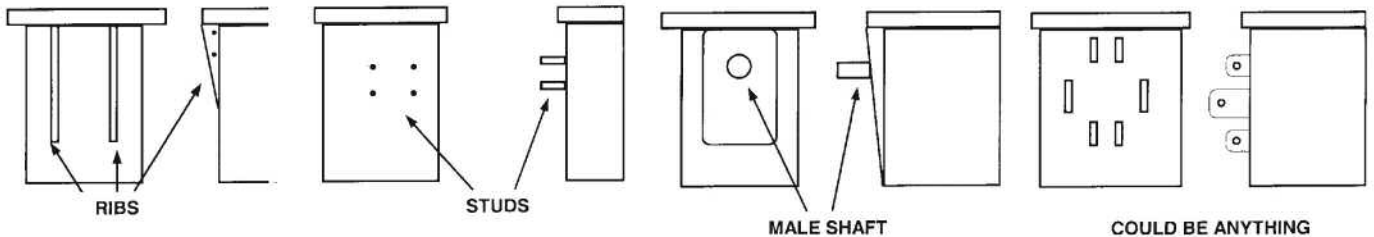

- Asplundh/Telsta
male shaft mount
- Aerial Lift/Sky Worker

5. For rib mount:

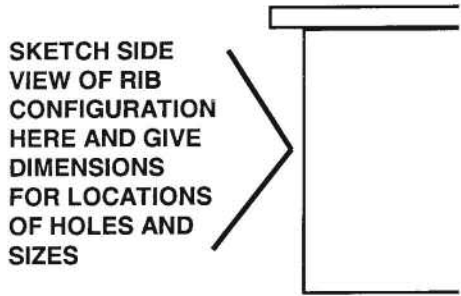

Choose One

- Is critical dimension the interior of the ribs?
- the exterior of the ribs?
- interior on one rib to exterior on the other

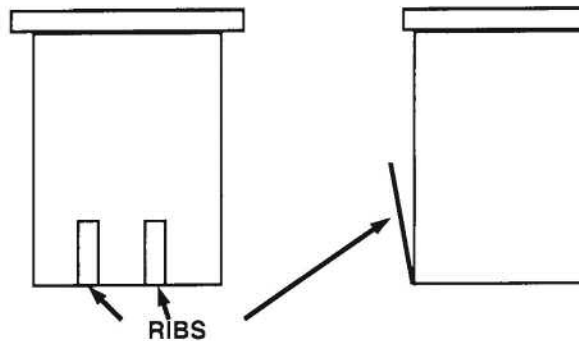

B. What is that dimension?

(i.e., measurement)

- C. How far out do the ribs protrude from the wall of the bucket? At top _____.
At 24" from top _____. And how long are they? _____.
- D. Many customers prefer to drill the mounting holes in the ribs themselves. Do you wish to drill them? _____ If you wish us to drill them, please sketch below the hole location and size.

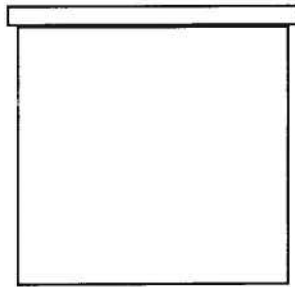

- E. Is there anything else on the rib side, such as angles or studs for a guard? If there is anything, please sketch it below and provide dimensions.

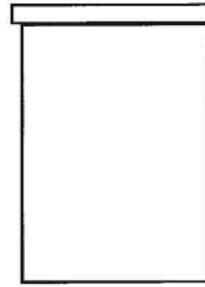

- F. Skip to Question 9.

6. For stud mount:

A. Please sketch below the stud locations.

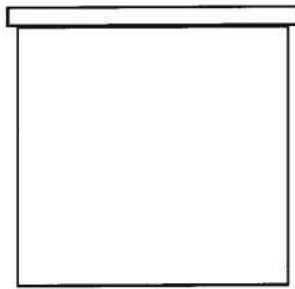

MOUNTING SIDE

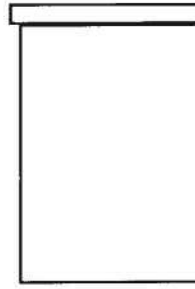

↑ SIDE VIEW OF STUDS

What is the diameter of the studs _____ and what kind of threads _____ and how far do they protrude out from wall of bucket _____?

B. Is there anything else on the mounting side, such as angles or studs for a guard? If there is anything, please sketch it below and provide dimensions.

MOUNTING SIDE

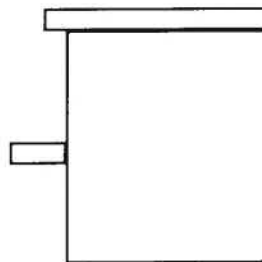

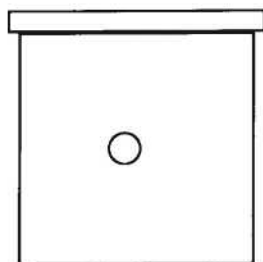

↑ SIDE VIEW OF WHATEVER

C. Skip to Question 9.

7. A. Check One: Asplundh Telsta Aerial Lift of Conn Sky Worker

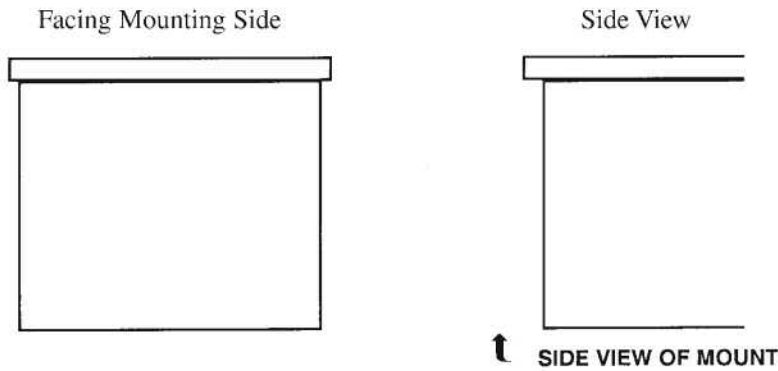

B. If Aerial Lift of Conn, we will need the female clamp from the inside of your existing bucket. You can either send us the bucket, or you can cut out the clamp with a saw. Cutting it out allows you to save freight cost as you can then send it UPS.

C. Is there anything else on the mounting side, such as angles or studs for a guard or the cable guide on an Asplundh (extra charge for cable guard of \$48)? If there is anything, please sketch it below and provide dimensions.

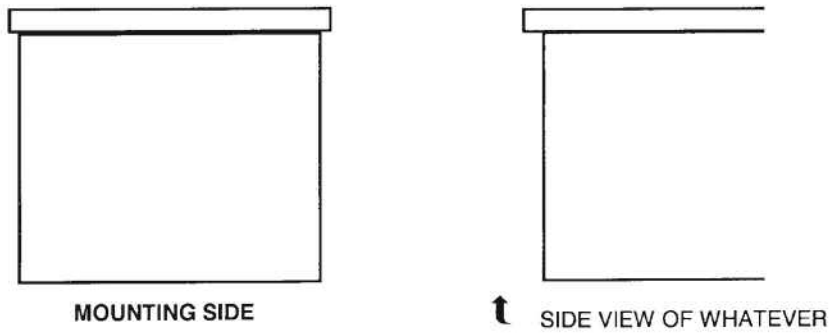

8. **If other kind of mount:**

A. Please sketch the mount below and provide dimensions:

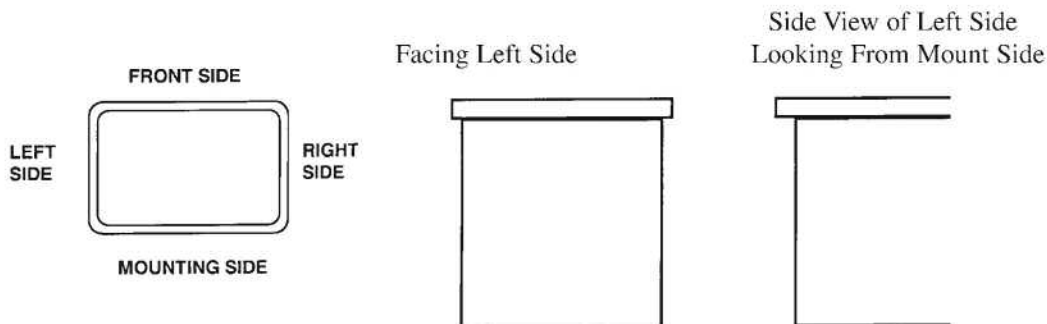

B. Is there anything else on the mounting side, such as angles or studs for a guard? If there is anything, please sketch it below and provide dimensions.

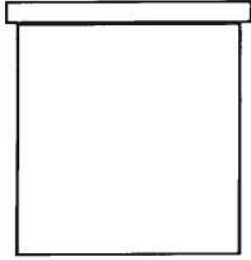

C. Go to Question 9.

9. Please face the mounting side. The left side below is to your left; the right side below is to your right; the front side below is opposite the mount side. Please sketch below anything that is on each side, such as steps, control mountings, angles for guard mountings, toespaces, etc., and provide dimensions.
